

CMHC MLI SELECT

The advantages of the *program*

MLI Select is CMHC's insured lending program for purpose-built rental. On a qualifying Edmonton build it changes the arithmetic of ownership — the terms below are the reason out-of-province investors start here instead of Ontario.

01 Amortization up to 50 years

Against 30 years on conventional financing. The same debt, spread over twenty more years of payments — which is where the projected cashflow comes from.

02 As low as 5% down

Up to 95% CMHC-insured funding, where the project clears a 1.10 DSCR at that level. Entry capital of \$80K-\$155K by asset size, not \$400K.

03 Underwritten on the asset

The building's rent roll carries the loan: DSCR 1.10 CMHC minimum, 1.15-1.27 across active inventory. Personal criteria still apply — 680 credit, 25% net worth of project price in Canadian assets, 10% liquidity including the deposit.

04 Limited recourse

Most MLI Select structures are limited-recourse and held commercially, which keeps the asset's debt separate from the personal balance sheet you use for everything else.

05 Points buy the best terms

Three pillars — affordability, energy efficiency, accessibility. 50 points is minimum eligibility; 100 points earns maximum terms, the 50-year amortization and the highest LTV. Our builds are designed to the top of the scale, with ~25% of units at or below the CMHC median benchmark.

06 A defined review window

CMHC review runs 60-90 days on a complete file. New purpose-built construction carries up to ten years of Alberta New Home Warranty behind it.

07 A broker who does this daily

A preferred Edmonton brokerage partner specializing in commercial MLI Select, compensated by the lender. Referral relationships are disclosed in writing; you are free to use any licensed provider.

08 Management from day one

A builder-approved property-management partner enters at pre-leasing at preferred pricing. You own eight doors in Edmonton without touching a tenant call in Toronto.

Projections, not guarantees. Subject to lease-up and CMHC underwriting. Closing costs run \$8K–\$15K; total cash to close is 7–8% of price.

Why the program works in Edmonton

~4%

Edmonton vacancy

200K+

Albertans arriving per year

40–50%

Lower prices than Toronto

\$0

Land transfer tax

No PST and no HST on new rental construction, and no Ontario-style development charges — Alberta uses off-site levies, absorbed into builder pricing.
